

**City of Fernley  
Qualified Professional List  
2016-2018**

*The City of Fernley, requested Statements of Qualifications (SOQ) from consulting firms for various engineering fields and professional services. The intent of the request was to establish an on-call list of consulting firms for various disciplines for 2016 through 2018. The list may be utilized beyond 2018 at the discretion of the City Engineer.*

*Projects may be assigned in three (3) different ways:*

- 1) A firm may be selected by the City from the appropriate service category based upon on their project experience and qualifications,*
- 2) At least three firms from a service category may be invited to participate in a request for approach process or participate in a short interview to determine which firm's qualifications best match the project needs,or,*
- 3) The City of Fernley may issue a request for proposals and solicit responses for individual projects from all interested firms nationwide, independent of the SOQ list.*

*The City has reviewed all of the SOQ submittals and placed each firm in a category based on their SOQ submittal. These are UNRANKED LISTS. Each list is arranged in alphabetical order. Firms will be selected from the list as outlined in the paragraph above.*

*The City would like to thank you for all of your effort and participation in this process. We look forward to working with you in the future!*

**Bridge Design/Inspection**

AECOM  
BJG Architecture & Engineering  
Poggemeyer Design Group, Inc.  
Stantec

**Construction Inspection**

AM Engineering  
CME  
Black Eagle consulting Inc.  
Carollo Engineers  
Ceresola Inspection Services  
DCS

**Construction Inspection Cont.**

Dyer Engineering Consultants  
Eastern Sierra Engineering  
Lumos & Associates  
NCE  
Poggemeyer Design Group, Inc.  
RCI  
Stantec  
Summit Engineering Corp.
